#### Disclaimer

The information provided in this document is general information only and is not intended to provide specific guidance on how to utilize, code, bill, or charge for any product. This information provides only an overview of publicly available current coding policies and may not provide all the information necessary to understand a particular situation. The information provided may not be comprehensive or complete. It is the responsibility of the health care provider, such as a hospital or a physician, to submit complete, accurate and appropriate bills or claims for payment that comply with applicable laws and regulations and third-party payer requirements, and to determine the appropriate codes, charges, and modifiers that the provider uses for those purposes. Third-party payers may have policies and coding requirements that differ from those described here, and such policies can change over time. Physicians should independently verify current coding policies and reimbursement requirements with the payer for any particular patient.
